

MEMORANDUM

TO: All Superintendents and Charter School Sponsors

FROM: Peggy E. Smith, Fiscal Analyst
Office of School Finance

DATE: April 30, 2010

SUBJECT: Estimate of Reimbursement for 2010 Summer School Programs

A total of 265 school corporations and charter schools reported expenditure estimates for the 2010 summer school programs that total more than \$31.2 million.

Based on the expenditure estimates submitted, Category 1 will receive funding at 58.81 | 6984%. Category 1 classes are core curricular programs in the elementary and middle school grades and classes required for graduation in the high school level.

Attached is a list of the qualifying school corporations/charter schools estimated amounts to be received. Only those schools on the attached list are seeking reimbursement for actual costs submitted later this year.

The actual percentage will be determined when actual expenditure data are received. There will be no reimbursement for Category 2. Please refer to the 2010 Summer School Program Eligible Courses listed at www.doe.in.gov/summerschool.

In spite of diminished resources, summer school curricula remains important to the success of many of our students, and, in times like these, we need to think differently than we normally would. We hope you will explore opportunities to minimize local costs by offering courses with other school corporations or holding courses at central locations such as area vocational schools. Corporations that jointly offer programs can more easily share expenses that are not met by state reimbursement.

If you have any questions about this announcement or the method of estimating summer school reimbursement, please contact us at the number below.
